<code>age_gender_hsct20_ni</code>	<i>Age and gender grouped data for Northern Ireland from Population 2020 (Health and Social Care Trusts)</i>
-----------------------------------	--

Description

A dataset containing Population 2020 age and gender count for each HSCT in Northern Ireland.

Usage

`age_gender_hsct20_ni`

Format

A data frame of class "tbl" with 5 rows and 11 variables:

hsct20_name Health and Social Care Trust name
hsct20_code Health and Social Care Trust code
total_population Total population
total_female_population Total female population
total_male_population Total male population
younger_females Count of females aged under 16 years
working_age_females Count of females aged between 16 and 65
older_females Count of females aged over 65
younger_males Count of males aged under 16 years
working_age_males Count of males aged between 16 and 65
older_males Count of males aged over 65

Source

<https://www.nisra.gov.uk/>

age_gender_ltle21_ni	<i>Age and gender grouped data for Northern Ireland from 2021 Census (Local Government Districts)</i>
----------------------	---

Description

A dataset containing Census 2021 age and gender count for each Local Government District in Northern Ireland.

Usage

age_gender_ltle21_ni

Format

A data frame of class "tbl" with 11 rows and 11 variables:

ltle21_name Local Government District name

ltle21_code Local Government District code

total_population Total population

total_female_population Total female population

total_male_population Total male population

younger_females Count of females aged under 20 years

working_age_females Count of females aged between 20 and 65

older_females Count of females aged over 65

younger_males Count of males aged under 20 years

working_age_males Count of males aged between 20 and 65

older_males Count of males aged over 65

Source

<https://www.nisra.gov.uk/>

age_gender21_ltla21_ew

Age and gender grouped data for England and Wales from 2021 Census

Description

A dataset containing Census 2021 age and gender count for each LA in England and Wales

Usage

age_gender21_ltla21_ew

Format

A data frame of class "tbl" with 11 rows and 11 variables:

ltla21_code Local Authority code

total_population Total population

total_female_population Total female population

total_male_population Total male population

younger_females Count of females aged under 20 years

working_age_females Count of females aged between 20 and 65

older_females Count of females aged over 65

younger_males Count of males aged under 20 years

working_age_males Count of males aged between 20 and 65

older_males Count of males aged over 65

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

age_gender23_ltla_ni *Age and gender grouped data for Northern Ireland from 2023 Mid Year Estimates (Local Government Districts)*

Description

A dataset containing 2023 mid year estimates age and gender count for each Local Government District in Northern Ireland.

Usage

age_gender23_ltla_ni

Format

A data frame of class "tbl" with 11 rows and 11 variables:

ltla21_name Local Government District name (2014). Renamed LTLA for consistency.

ltla21_code Local Government District code (2014). Renamed LTLA for consistency.

total_population Total population

total_female_population Total female population

total_male_population Total male population

younger_females Count of females aged under 16 years

working_age_females Count of females aged between 16 and 64

older_females Count of females aged over 64

younger_males Count of males aged under 16 years

working_age_males Count of males aged between 16 and 64

older_males Count of males aged over 64

Source

<https://www.nisra.gov.uk/>

disability21_lgd21_ni *Disability data for Northern Ireland from the 2021 Census (LGD)*

Description

A data LSOA containing Census 2021 disability numbers and percentages for each LTLA in England and Wales.

Usage

disability21_lgd21_ni

Format

A data frame of class "tbl":

lgd21_code LGD code

disability Disability status

count The count of people with the disability status

prop The percentage of people with the disability status ...

Source

<https://www.nisra.gov.uk/>

disability21_lsoa21_ew*Disability data for England and Wales from the 2021 Census (Lower Super Output Area)*

Description

A dataset containing Census 2021 disability numbers and percentages for each LSOA in England and Wales.

Usage

disability21_lsoa21_ew

Format

A data frame of class "tbl":

lsoa21_code LSOA code

disability Disability status

n The count of people with the disability status

total_residents Total residents in LSOA

prop The percentage of people with the disability status ...

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

disability21_sdz21_ni *Disability data for Northern Ireland from the 2021 Census (Super Data Zones)*

Description

A data SDZ containing Census 2021 disability numbers and percentages for each SDZ in Northern Ireland.

Usage

disability21_sdz21_ni

Format

A data frame of class "tbl":

sdz21_code SDZ code

total_households Total number of households in each SDZ

disability Disability status

n The count of households with the disability status

prop The percentage of households with the disability status ...

Source

<https://www.nisra.gov.uk/>

disability22_dz11_scot

Disability data for Scotland from the 2022 Census (Data Zones)

Description

A data DZ containing Census 2022 disability numbers and percentages for each DZ in Scotland.

Usage

disability22_dz11_scot

Format

A data frame of class "tbl":

dz11_code DZ code

total_residents Total number of residents in each DZ

disability Disability status

n The count of residents with the disability status

prop The percentage of residents with the disability status ...

Source

<https://www.nisra.gov.uk/>

 ethnicity21_detailed_msoa21

Ethnic group (detailed) data for England and Wales from the 2021 Census (MSOA)

Description

A data sets containing Census 2021 detailed ethnic group numbers and percentages for each Middle Layer Super Output Area in England and Wales.

Usage

ethnicity21_detailed_msoa21

Format

A data frame of class "tbl" with 2,084,768 rows and 5 variables:

msoa21_code MSOA code

total_residents Total number of residents in the MSOA

ethnic_group Ethnic group (detailed)

n Number of people in the ethnic group

prop Percentage of people in the ethnic group ...

Source

<https://ons.gov.uk/>

 ethnicity21_lsoa21

Ethnic group data for England and Wales from the 2021 Census (LSOA)

Description

A data sets containing Census 2021 ethnic group numbers and percentages for each Lower Layer Super Output Area in England and Wales.

Usage

ethnicity21_lsoa21

Format

A data frame of class "tbl" with 5 variables:

mloa21_code LSOA code
total_residents Total number of residents in the LSOA
ethnic_group Ethnic group
n Number of people in the ethnic group
prop Percentage of people in the ethnic group ...

Source

<https://ons.gov.uk/>

ethnicity21_lta21	<i>Ethnic group data for England and Wales from the 2021 Census (Local Authority)</i>
-------------------	---

Description

A data sets containing Census 2021 ethnic group numbers and percentages for each Lower Tier Local Authority in England and Wales.

Usage

ethnicity21_lta21

Format

A data frame of class "tbl" with 12578 rows and 4 variables:

lta21_name Local Authority name
lta21_code Local Authority code
ethnic_group Ethnic group
value The count or percentage of the ethnic group ...

Source

<https://ons.gov.uk/>

ethnicity21_ltla21_ni *Ethnic group data for Northern Ireland from the 2021 Census (Local Authority)*

Description

A data sets containing Census 2021 ethnic group numbers and percentages for each Local Government District in Northern Ireland.

Usage

```
ethnicity21_ltla21_ni
```

Format

A data frame of class "tbl" with 286 rows and 4 variables:

ltla21_name Local Authority name

ltla21_code Local Authority code

ethnic_group Ethnic group

value The count or percentage of the ethnic group ...

Source

<https://www.nisra.gov.uk/>

ethnicity21_msoa21 *Ethnic group data for England and Wales from the 2021 Census (MSOA)*

Description

A data sets containing Census 2021 ethnic group numbers and percentages for each Middle Layer Super Output Area in England and Wales.

Usage

```
ethnicity21_msoa21
```

Format

A data frame of class "tbl" with 43,584 rows and 5 variables:

msoa21_code MSOA code

total_residents Total number of residents in the MSOA

ethnic_group Ethnic group

n Number of people in the ethnic group

prop Percentage of people in the ethnic group ...

Source

<https://ons.gov.uk/>

household_deprivation11_dz11

Deprivation dimensions for Data Zones in Scotland

Description

A data set containing 2011 estimates of deprivation dimensions for Data Zones in Scotland.

Usage

household_deprivation11_dz11

Format

A data frame of class "tbl" with 34,880 rows and 5 variables:

dz11_code Data Zone code

total_households Total number of households in each DZ

deprivation_dimensions Deprived in dimensions (0 to 4)

n Number of households per each deprivation dimension

prop The percentage of households with the deprivation dimension status

Source

<https://www.scotlandscensus.gov.uk/search-the-census>

household_deprivation21_lsoa21

Deprivation dimensions for Lower Super Output Areas in England and Wales

Description

A data set containing 2021 estimates of deprivation dimensions for Lower Super Output Areas in England and Wales.

Usage

household_deprivation21_lsoa21

Format

A data frame of class "tbl" with 178,360 rows and 5 variables:

lsoa21_code Lower Super Output Area code

total_households Total number of households in each LSOA

deprivation_dimensions Deprived in dimensions (0 to 4)

n Number of households per each deprivation dimension

prop The percentage of households with the deprivation dimension status

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_deprivation21_oa21

Deprivation dimensions for Output Areas in England and Wales

Description

A data set containing 2021 estimates of deprivation dimensions for Output Areas in England and Wales.

Usage

household_deprivation21_oa21

Format

A data frame of class "tbl" with 944,400 rows and 5 variables:

oa21_code Output Area code

total_households Total number of households in each OA

deprivation_dimensions Deprived in dimensions (0 to 4)

n Number of households per each deprivation dimension

prop The percentage of households with the deprivation dimension status

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_deprivation21_sdz21

Deprivation dimensions for Super Data Zones in Northern Ireland

Description

A data set containing 2021 estimates of deprivation dimensions for Super Data Zones in Northern Ireland.

Usage

household_deprivation21_sdz21

Format

A data frame of class "tbl" with 4,250 rows and 5 variables:

sdz21_code Super Data Zone code

total_households Total number of households in each SDZ

deprivation_dimensions Deprived in dimensions (0 to 4)

n Number of households per each deprivation dimension

prop The percentage of households with the deprivation dimension status

Source

<https://www.nisra.gov.uk/>

household_overcrowding21_lsoa21

Household overcrowding statistics for Lower Super Output Areas in England and Wales

Description

A data set containing 2021 estimates of household overcrowding for Lower Super Output Areas in England and Wales.

Usage

household_overcrowding21_lsoa21

Format

A data frame of class "tbl" with 178,360 rows and 5 variables:

lsoa21_code Lower Super Output Area code

total_households Total number of households in each LSOA

occupancy_rating Occupancy rating

n Number of households per each occupancy rating

prop The percentage of households with the specific occupancy rating

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_overcrowding21_oa21

Household overcrowding statistics for Output Areas in England and Wales

Description

A data set containing 2021 estimates of household overcrowding for Output Areas in England and Wales.

Usage

household_overcrowding21_oa21

Format

A data frame of class "tbl" with 994,440 rows and 5 variables:

oa21_code Lower Super Output Area code

total_households Total number of households in each OA

occupancy_rating Occupancy rating

n Number of households per each occupancy rating

prop The percentage of households with the specific occupancy rating

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_overcrowding21_sdz21

Household overcrowding statistics for Super Data Zones in Northern Ireland

Description

A data set containing 2021 estimates of household overcrowding for Super Data Zones in Northern Ireland.

Usage

household_overcrowding21_sdz21

Format

A data frame of class "tbl" with 4,250 rows and 5 variables:

sdz21_code Super Data Zone code

total_households Total number of households in each SDZ

occupancy_rating Occupancy rating

n Number of households per each occupancy rating

prop The percentage of households with the specific occupancy rating

Source

<https://www.nisra.gov.uk/>

household_overcrowding22_dz11

Household overcrowding statistics for Data Zones in Scotland

Description

A data set containing 2022 estimates of household overcrowding for Data Zones in Scotland.

Usage

household_overcrowding22_dz11

Format

A data frame of class "tbl" with 27,904 rows and 5 variables:

dz11_code Data Zone code

total_households Total number of households in each DZ

occupancy_rating Occupancy rating

n Number of households per each occupancy rating

prop The percentage of households with the specific occupancy rating

Source

<https://www.scotlandscensus.gov.uk/scotlands-census-2022-flexible-table-builder/>

household_tenure21_lsoa21

Household tenure statistics for Lower Super Output Areas in England and Wales

Description

A data set containing 2021 estimates of household tenure for Lower Super Output Areas in England and Wales.

Usage

household_tenure21_lsoa21

Format

A data frame of class "tbl" with 285,376 rows and 5 variables:

lsoa21_code Lower Super Output Area code

total_households Total number of households in each LSOA

tenure Household tenure type

n Number of households per each tenure type

prop The percentage of households with the specific tenure type

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_tenure21_oa21

Household tenure statistics for Output Areas in England and Wales

Description

A data set containing 2021 estimates of household tenure for Output Areas in England and Wales.

Usage

household_tenure21_oa21

Format

A data frame of class "tbl" with 1,511,040 rows and 5 variables:

oa21_code Output Area code

total_households Total number of households in each OA

tenure Household tenure type

n Number of households per each tenure type

prop The percentage of households with the specific tenure type

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_tenure21_sdz21

Household tenure statistics for Super Data Zones in Northern Ireland

Description

A data set containing 2021 estimates of household tenure for Super Data Zones in Northern Ireland.

Usage

household_tenure21_sdz21

Format

A data frame of class "tbl" with 9,350 rows and 5 variables:

sdz21_code Super Data Zone code

total_households Total number of households in each SDZ

tenure Household tenure type

n Number of households per each tenure type

prop The percentage of households with the specific tenure type

Source

<https://www.nisra.gov.uk/>

household_tenure22_dz11

Household tenure statistics for Data Zones in Scotland

Description

A data set containing 2022 estimates of household tenure for Data Zones in Scotland.

Usage

household_tenure22_dz11

Format

A data frame of class "tbl" with 55,808 rows and 5 variables:

dz11_code Data Zone code

total_households Total number of households in each DZ

tenure Household tenure type

n Number of households per each tenure type

prop The percentage of households with the specific tenure type

Source

<https://www.scotlandscensus.gov.uk/scotlands-census-2022-flexible-table-builder/>

household_type21_lsoa21

Household type statistics for Lower Super Output Areas in England and Wales

Description

A data set containing 2021 estimates of household type for Lower Super Output Areas in England and Wales.

Usage

household_type21_lsoa21

Format

A data frame of class "tbl" with 285,376 rows and 5 variables:

lsoa21_code Lower Super Output Area code

total_households Total number of households in each LSOA

type Household type

n Number of households per each household type

prop The percentage of households with the specific household type

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_type21_oa21 *Household type statistics for Output Areas in England and Wales*

Description

A data set containing 2021 estimates of household type for Output Areas in England and Wales.

Usage

household_type21_oa21

Format

A data frame of class "tbl" with 1,511,040 rows and 5 variables:

oa21_code Output Area code

total_households Total number of households in each OA

type Household type

n Number of households per each household type

prop The percentage of households with the specific household type

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

household_type21_sdz21*Household type statistics for Super Data Zones in Northern Ireland*

Description

A data set containing 2021 estimates of household type for Super Data Zones in Northern Ireland.

Usage

household_type21_sdz21

Format

A data frame of class "tbl" with 5,950 rows and 5 variables:

sdz21_code Super Data Zone code

total_households Total number of households in each SDZ

type Household type

n Number of households per each household type

prop The percentage of households with the specific household type

Source

<https://www.nisra.gov.uk/>

household_type22_dz11 *Household type statistics for Data Zones in Scotland*

Description

A data set containing 2022 estimates of household type for Data Zones in Scotland.

Usage

household_type22_dz11

Format

A data frame of class "tbl" with 48,832 rows and 5 variables:

dz11_code Data Zone code

total_households Total number of households in each DZ

type Household type

n Number of households per each household type

prop The percentage of households with the specific household type

Source

<https://www.scotlandscensus.gov.uk/scotlands-census-2022-flexible-table-builder/>

households21_ltlea21	<i>Households in Lower Tier Local Authorities in England and Wales, as of Census 2021</i>
----------------------	---

Description

A data sets containing Census 2021 population counts for each Lower Tier Local Authority in the UK. Currently only Local Authority data has been released for England and Wales.

Usage

households21_ltlea21

Format

A data frame of class "tbl" with 331 rows and 3 variables:

ltla21_name Local Authority name

ltla21_code Local Authority code

households Number of households ...

Source

<https://ons.gov.uk/>

migration21_msoa21	<i>A data sets containing Census 2021 migration statistics with percentages for each Middle Super Output Area (MSOA).</i>
--------------------	---

Description

A data sets containing Census 2021 migration statistics with percentages for each Middle Super Output Area (MSOA).

Usage

migration21_msoa21

Format

A data frame of class "tbl" with 7264 rows and 9 variables:

msoa21_code MSOA code

msoa21_name MSOA name

all_usual_residents Number of all usual residents

address_one_year_ago_is_the_same Number where address one year ago is the same as the address of enumeration

address_one_year_ago_is_student_or_boarding Number where address one year ago is student term-time or boarding school address in the UK

migrant_from_within_uk Migrant from within the UK: Number where address one year ago was in the UK

migrant_from_outside_uk Migrant from outside the UK: Number where address one year ago was outside the UK

prop_migrated_from_within_uk Proportion of migrants from within the UK

prop_migrated_from_outside_uk Proportion of migrants from outside the UK ...

Source

https://www.nomisweb.co.uk/sources/census_2021_bulk

population_hb19

Scottish Health Board (2019) Population Estimates

Description

A data set containing population estimates for NHS Scotland Health Boards (2019), from 1981 to 2021.

Usage

population_hb19

Format

A data frame of class "tbl" with 574 rows and 3 variables:

hb19_code NHS Health Board code

year Year of population estimate

total_population Total population for all ages ...

Source

<https://www.opendata.nhs.scot/>

population17_lsoa11	<i>Population estimates for LSOAs in England and Wales (mid-2017 estimates with 2011 codes)</i>
---------------------	---

Description

A data set containing mid-2017 population estimates for Lower Layer Super Output Areas in England and Wales.

Usage

```
population17_lsoa11
```

Format

A data frame of class "tbl" with 34,753 rows and 94 variables:

lsoa11_name LSOA name

lsoa11_code LSOA code

total_population Total number of people living in each LSOA

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population19_lsoa11	<i>Population estimates for LSOAs in England and Wales (mid-2019 estimates with 2011 codes)</i>
---------------------	---

Description

A data set containing mid-2019 population estimates for Lower Layer Super Output Areas in England and Wales.

Usage

```
population19_lsoa11
```

Format

A data frame of class "tbl" with 34,753 rows and 94 variables:

lsoa11_name LSOA name

lsoa11_code LSOA code

total_population Total number of people living in each LSOA

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population19_ltla19	<i>Population estimates for Local Authority Districts (mid-2019 values with 2019 codes)</i>
---------------------	---

Description

A data set containing mid-2019 population estimates for Local Authority Districts (April 2019 codes) in each devolved nation.

Usage

population19_ltla19

Format

A data frame of class "tbl" with 339 rows and 94 variables:

ltla19_name LAD name

ltla19_code LAD code

total_population Total number of people living in each LAD

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population19_ltla20	<i>Population estimates for Local Authority Districts (mid-2019 values with 2020 codes)</i>
---------------------	---

Description

A data set containing mid-2019 population estimates for Local Authority Districts (April 2020 codes) in each devolved nation.

Usage

population19_ltla20

Format

A data frame of class "tbl" with 336 rows and 94 variables:

lta20_name LAD name

lta20_code LAD code

total_population Total number of people living in each LAD

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population19_msoa11	<i>Population estimates for MSOAs in England and Wales (mid-2019 estimates with 2011 codes)</i>
---------------------	---

Description

A data set containing mid-2019 population estimates for Middle Layer Super Output Areas in England and Wales.

Usage

population19_msoa11

Format

A data frame of class "tbl" with 7,201 rows and 94 variables:

msoa11_name MSA name

msoa11_code MSA code

total_population Total number of people living in each MSA

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population19_utla19	<i>Population estimates for Counties and Unitary Authorities (mid-2019 values with 2019 codes)</i>
---------------------	--

Description

A data set containing mid-2019 population estimates for County and Unitary Authority Districts (April 2019 codes) in each devolved nation.

Usage

```
population19_utla19
```

Format

A data frame of class "tbl" with 173 rows and 94 variables:

utla19_name County or Unitary Authority name
utla19_code County or Unitary Authority code
total_population Total number of people living in each area
 0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population19_utla20	<i>Population estimates for Counties and Unitary Authorities (mid-2019 values with 2020 codes)</i>
---------------------	--

Description

A data set containing mid-2019 population estimates for County and Unitary Authority Districts (April 2020 codes) in each devolved nation.

Usage

```
population19_utla20
```

Format

A data frame of class "tbl" with 173 rows and 94 variables:

utla20_name County or Unitary Authority name
utla20_code County or Unitary Authority code
total_population Total number of people living in each area
 0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population20_dz11	<i>Population estimates for Data Zones in Scotland (2020 estimates with 2011 codes)</i>
-------------------	---

Description

A data set containing 2020 population estimates by age and sex for Data Zones in Scotland.

Usage

population20_dz11

Format

A data frame of class "tbl" with 20,928 rows and 94 variables:

dz11_code Data Zone code

total_population Total number of people living in each DZ

sex 'Female', 'Male' or 'All'

0:90+ Number of people in each single age group ...

Source

<https://www.opendata.nhs.scot/>

population20_lsoa11	<i>Population estimates for LSOAs in England and Wales (mid-2020 estimates with 2011 codes)</i>
---------------------	---

Description

A data set containing mid-2020 population estimates for Lower Layer Super Output Areas in England and Wales.

Usage

population20_lsoa11

Format

A data frame of class "tbl" with 34,753 rows and 94 variables:

lsoa11_name LSOA name

lsoa11_code LSOA code

total_population Total number of people living in each LSOA

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population20_ltla20	<i>Population estimates for Local Authority Districts (mid-2020 values with 2020 codes)</i>
---------------------	---

Description

A data set containing mid-2020 population estimates for Local Authority Districts (April 2020 codes) in each devolved nation.

Usage

```
population20_ltla20
```

Format

A data frame of class "tbl" with 336 rows and 94 variables:

ltla20_name LAD name

ltla20_code LAD code

total_population Total number of people living in each LAD

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population20_ltlea21	<i>Population estimates for Local Authority Districts (mid-2020 values with 2021 codes)</i>
----------------------	---

Description

A data set containing mid-2020 population estimates for Local Authority Districts (April 2021 codes) in each devolved nation.

Usage

```
population20_ltlea21
```

Format

A data frame of class "tbl" with 331 rows and 94 variables:

ltle21_name LAD name

ltle21_code LAD code

total_population Total number of people living in each LAD

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population20_msoa11	<i>Population estimates for MSOAs in England and Wales (mid-2020 estimates with 2011 codes)</i>
---------------------	---

Description

A data set containing mid-2020 population estimates for Middle Layer Super Output Areas in England and Wales.

Usage

```
population20_msoa11
```

Format

A data frame of class "tbl" with 7,201 rows and 94 variables:

msoa11_name MSOA name

msoa11_code MSOA code

total_population Total number of people living in each MSOA

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population20_oa11	<i>Population estimates for OAs in England and Wales (mid-2020 estimates with 2011 codes)</i>
-------------------	---

Description

A data set containing mid-2020 population estimates for Output Areas in England and Wales.

Usage

population20_oa11

Format

A data frame of class "tbl" with 181,408 rows and 94 variables:

oa11_name OA name

oa11_code OA code

total_population Total number of people living in each OA

0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population20_utla20	<i>Population estimates for Counties and Unitary Authorities (mid-2020 values with 2020 codes)</i>
---------------------	--

Description

A data set containing mid-2020 population estimates for County and Unitary Authority Districts (April 2020 codes) in each devolved nation.

Usage

population20_utla20

Format

A data frame of class "tbl" with 172 rows and 94 variables:

utla20_name County or Unitary Authority name
utla20_code County or Unitary Authority code
total_population Total number of people living in each area
 0:90+ Number of people in each single age group ...

Source

<https://ons.gov.uk/>

population21_country21

Population in UK countries, as of Census 2021

Description

A data sets containing Census 2021 population counts for each UK nation. Note that Scotland has not yet released its latest Census results, so this is based on mid-year population estimates.

Usage

population21_country21

Format

A data frame of class "tbl" with 4 rows and 3 variables:

country_name Country name
country_code Country code
population Number of people ...

Source

<https://ons.gov.uk/>

population21_dea14	<i>Usual Resident Population, District Electoral Area, Northern Ireland, based on Census 2021</i>
--------------------	---

Description

Usual Resident Population, District Electoral Area, Northern Ireland, based on Census 2021

Usage

population21_dea14

Format

A data frame of class "tbl" with 80 rows and 3 variables:

dea14_name District Electoral Area name

dea14_code District Electoral Area code

residents All usual residents ...

Source

<https://www.nisra.gov.uk/publications/census-2021-person-and-household-estimates-data-zones-northern-ireland>

population21_dz11	<i>Population estimates in Scotland's Data Zones (2011 codes), as of 2021</i>
-------------------	---

Description

Population estimates in Scotland's Data Zones (2011 codes), as of 2021

Usage

population21_dz11

Format

A data frame of class "tbl" with 6,976 rows and 3 variables:

dz11_name Data Zone name

dz11_code Data Zone code

total_population Number of people ...

Source

<https://statistics.gov.scot/>

population21_dz21_ni *Population in Data Zones, Northern Ireland, 2021*

Description

A data set containing 2021 population counts

Usage

population21_dz21_ni

Format

A data frame of class "tbl":

dz21_code Data Zone code

n_people Number of usual residents ...

Source

<https://www.nisra.gov.uk/publications/census-2021-person-and-household-estimates-data-zones-northern-ireland>

population21_iz11 *Population estimates in Scotland's Intermediate Zones (2011 codes), as of 2021*

Description

Population estimates in Scotland's Intermediate Zones (2011 codes), as of 2021

Usage

population21_iz11

Format

A data frame of class "tbl" with 1,279 rows and 3 variables:

iz11_name Intermediate Zone name

iz11_code Intermediate Zone code

total_population Number of people ...

Source

<https://statistics.gov.scot/>

population21_lgd14	<i>Usual Resident Population, Local Government District, Northern Ireland, based on Census 2021</i>
--------------------	---

Description

Usual Resident Population, Local Government District, Northern Ireland, based on Census 2021

Usage

population21_lgd14

Format

A data frame of class "tbl" with 11 rows and 3 variables:

lgd14_name Local Government District name

lgd14_code Local Government District code

residents All usual residents ...

Source

<https://www.nisra.gov.uk/publications/census-2021-person-and-household-estimates-data-zones-northern-ireland>

population21_ltlea21	<i>Population in UK Lower Tier Local Authorities, as of Census 2021</i>
----------------------	---

Description

A data sets containing Census 2021 population counts for each Lower Tier Local Authority in the UK. Currently only Local Authority data has been released for England and Wales.

Usage

population21_ltlea21

population21_ltlea21

Format

A data frame of class "tbl" with 331 rows and 3 variables:

ltla21_name Local Authority name

ltla21_code Local Authority code

population Number of people ...

A data frame of class "tbl" with 32 rows and 3 variables:

ltla21_name Intermediate Zone name

ltla21_code Intermediate Zone code

total_population Number of people ...

Source

<https://ons.gov.uk/>

<https://statistics.gov.scot/>

population21_sdz21	<i>Usual Resident Population, Super Data Zone, Northern Ireland, based on Census 2021</i>
--------------------	---

Description

Usual Resident Population, Super Data Zone, Northern Ireland, based on Census 2021

Usage

population21_sdz21

Format

A data frame of class "tbl" with 850 rows and 3 variables:

sdz21_name Super Data Zone name

sdz21_code Super Data Zone code

residents All usual residents ...

Source

<https://www.nisra.gov.uk/publications/census-2021-person-and-household-estimates-data-zones-northern-ireland/>

population22_lsoa21	<i>Population in England and Wales Lower Layer Super Output Areas, 2022 mid year estimates</i>
---------------------	--

Description

Population in England and Wales Lower Layer Super Output Areas, 2022 mid year estimates

Usage

population22_lsoa21

Format

A data frame of class "tbl" with 25,672 rows and 2 variables:

lsoa21_code LSOA code

n_people Estimated number of people in LSOA ...

Source

<https://ons.gov.uk>

population22_ltle19_scotland	<i>Population in Scotland Councils, 2022 mid year estimates</i>
------------------------------	---

Description

A data set containing 2022 mid year estimate population counts for each Council in Scotland by sex, age.

Usage

population22_ltle19_scotland

Format

A data frame of class "tbl" with 32 rows and 95 variables:

ltle19_name Local Authority name

ltle19_code Local Authority code

sex Sex

all_ages Total number of people

0:90 and over Number of people in each single age group ...

Source

religion21_lsoa21	<i>Religion data for England and Wales from the 2021 Census (MSOA)</i>
-------------------	--

Description

A data sets containing Census 2021 religion numbers and percentages for each Lower Layer Super Output Area in England and Wales.

A data sets containing Census 2021 religion numbers and percentages for each Local Government District in Northern Ireland.

Usage

```
religion21_lsoa21
```

```
religion21_lsoa21
```

Format

A data frame of class "tbl" with 5 variables:

lsoa21_code LSOA code

total_residents Total number of residents in the LSOA

religion Religion

n Number of people in the religion

prop Percentage of people in the religion ...

A data frame of class "tbl" with 5 variables:
